### POST-INSTRUCTION SURVEYS FOR THE WORKSHOP AND THE ONE-ON-ON APPOINTMENTS

Mixed-methods surveys were created in Qualtrics to assess the workshop and the appointments. These surveys were designed to:

Assess the perceived effectiveness
 Identify which concepts added the most value

3) Identify potential service improvements

#### **BASIS OF THE SURVEYS**

Both of the Surveys were adapted from the Post-instruction survey in Appendix C of the following article:

Melissa Whitesell & Marilyn M. Helms (2013) Assessing Business Students' Research Skills for the Capstone Project in the Strategic Management Course, Journal of Business & Finance Librarianship, 18:1, 14-32, DOI: 10.1080/08963568.2013.736307

### **Survey Response** Rates Email was an ineffective distrubution method

Fall 2018 - Surveys for the Workshop and the One-on-One appointments were emailed

Workshop Survey Response Rate: 11.11% (n=3) **One-on-One Survey Response Rate: 7.14 (n=1)** 

Spring 2019 - Surveys for the Workshop were printed, and the surveys for the One-on-One appointments were opened on the computer used for the appointment at the end.

Workshop Response Rate: 80% (n=20) **One-on-One Survey Response Rate: 75% (n=12)**

#### Quotes:

"I liked he showed us to look up competitors"

"how to find industry codes and locating competitors"

Quotes:

"Where to look for competitors and what sources that could be useful besides the general ones"

"How best to use keywords in searches, his advice to focus our research on primary consumers, helped us to find a new key competitor"

### POTENTIAL SERVICE IMPROVEMENTS

Based on Responses in both surveys to "What could the librarian do to improve this service?"

### **Screen Capture the One-on-One Appointments**

**QUOTES**:

**"HAVE A PROGRAM THAT RECORDS THE SCREEN AND TURNS IT INTO A VIDEO SO** THE USER CAN GO BACK AND WATCH IT **AGAIN IF THEY ARE UNSURE ON HOW TO DO SOMETHING."**
