

« Not just documentation providers ... » :  
changing the perception of the library by designing new services for researchers

Christine Okret-Manville,  
Université Paris-Dauphine  
PSL

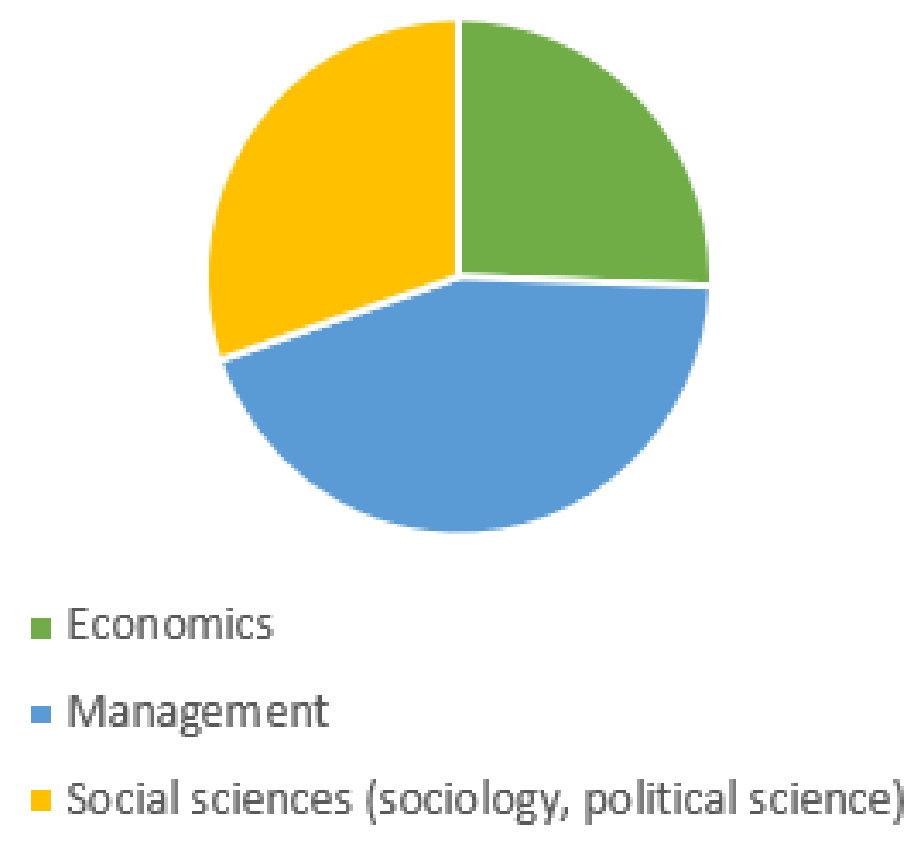

**University facts:**  
Specialization in organization and decision sciences  
  
Disciplines: economics, management, law, computer science, mathematics, sociology/political science

**University figures:**  
585 researchers  
307 PhD candidates

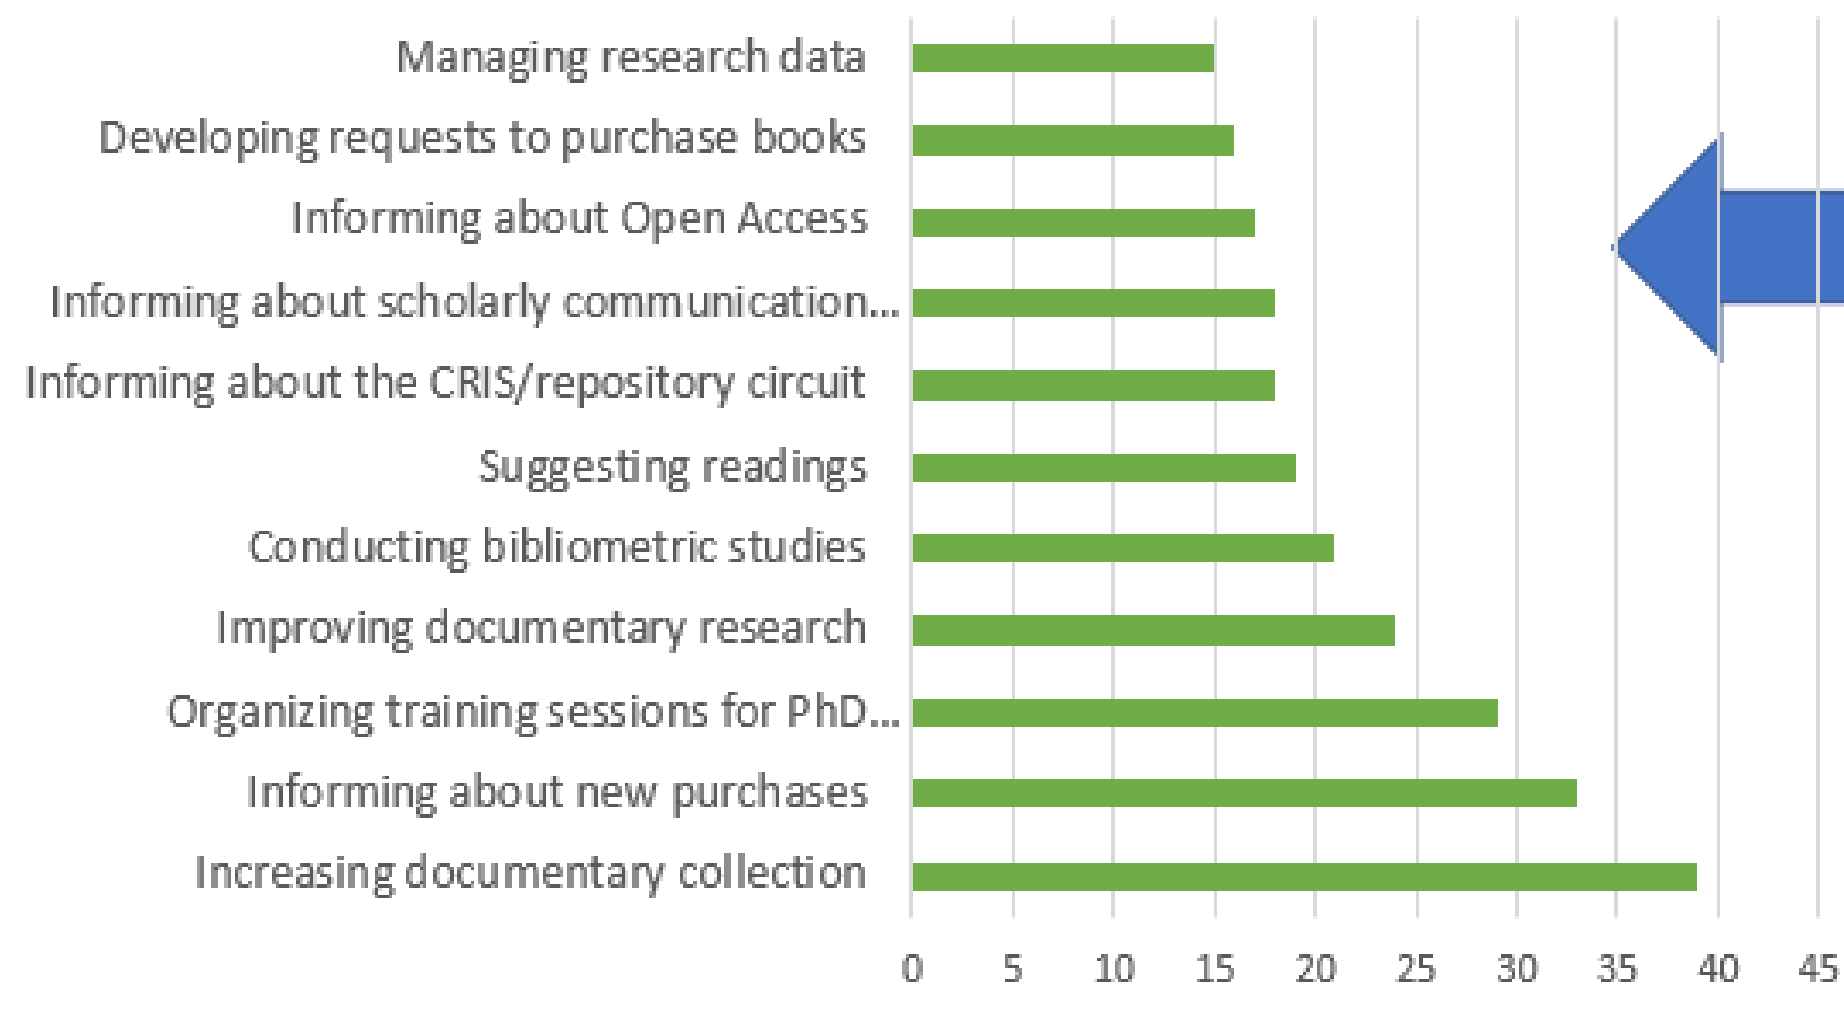

A small library: 42 people  
The Research Support Service: 5 people  
  
**Creating Research Support Services in the Library: the social sciences focus**

Participants to the survey

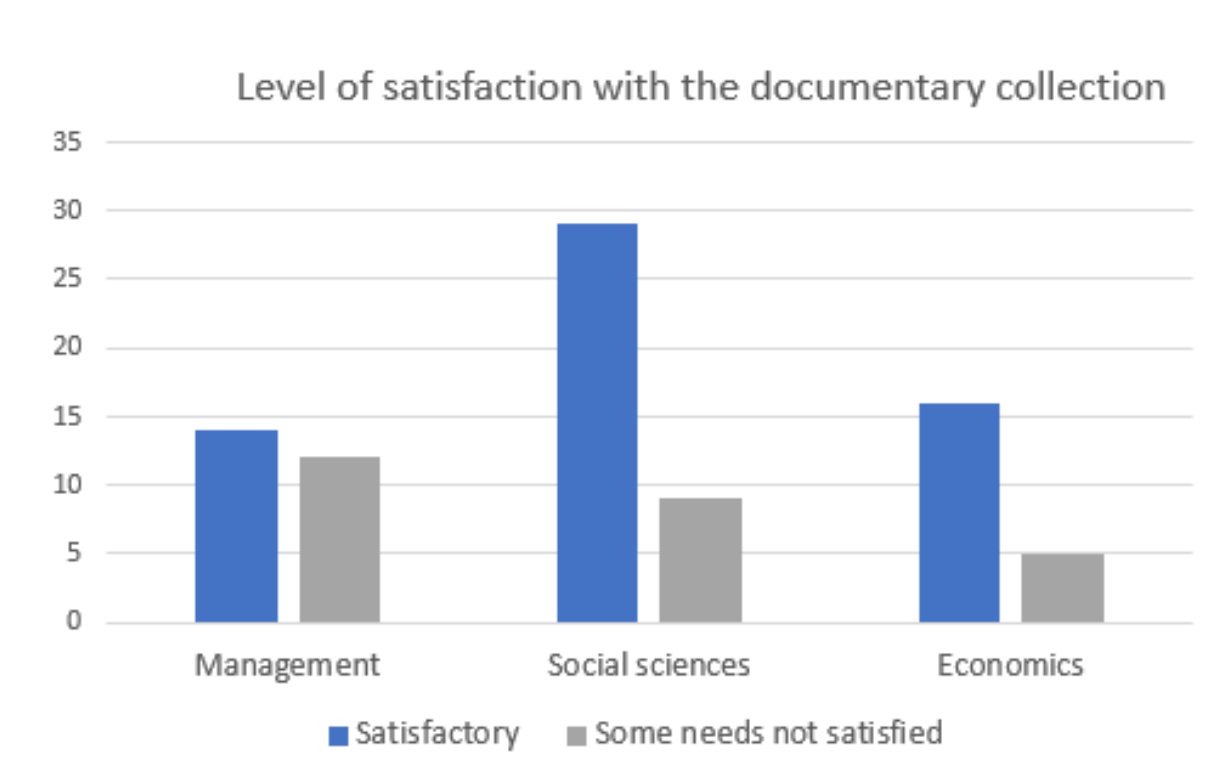

Priorities for researchers

A very traditional wishlist!  
No priority given to non documentary issues

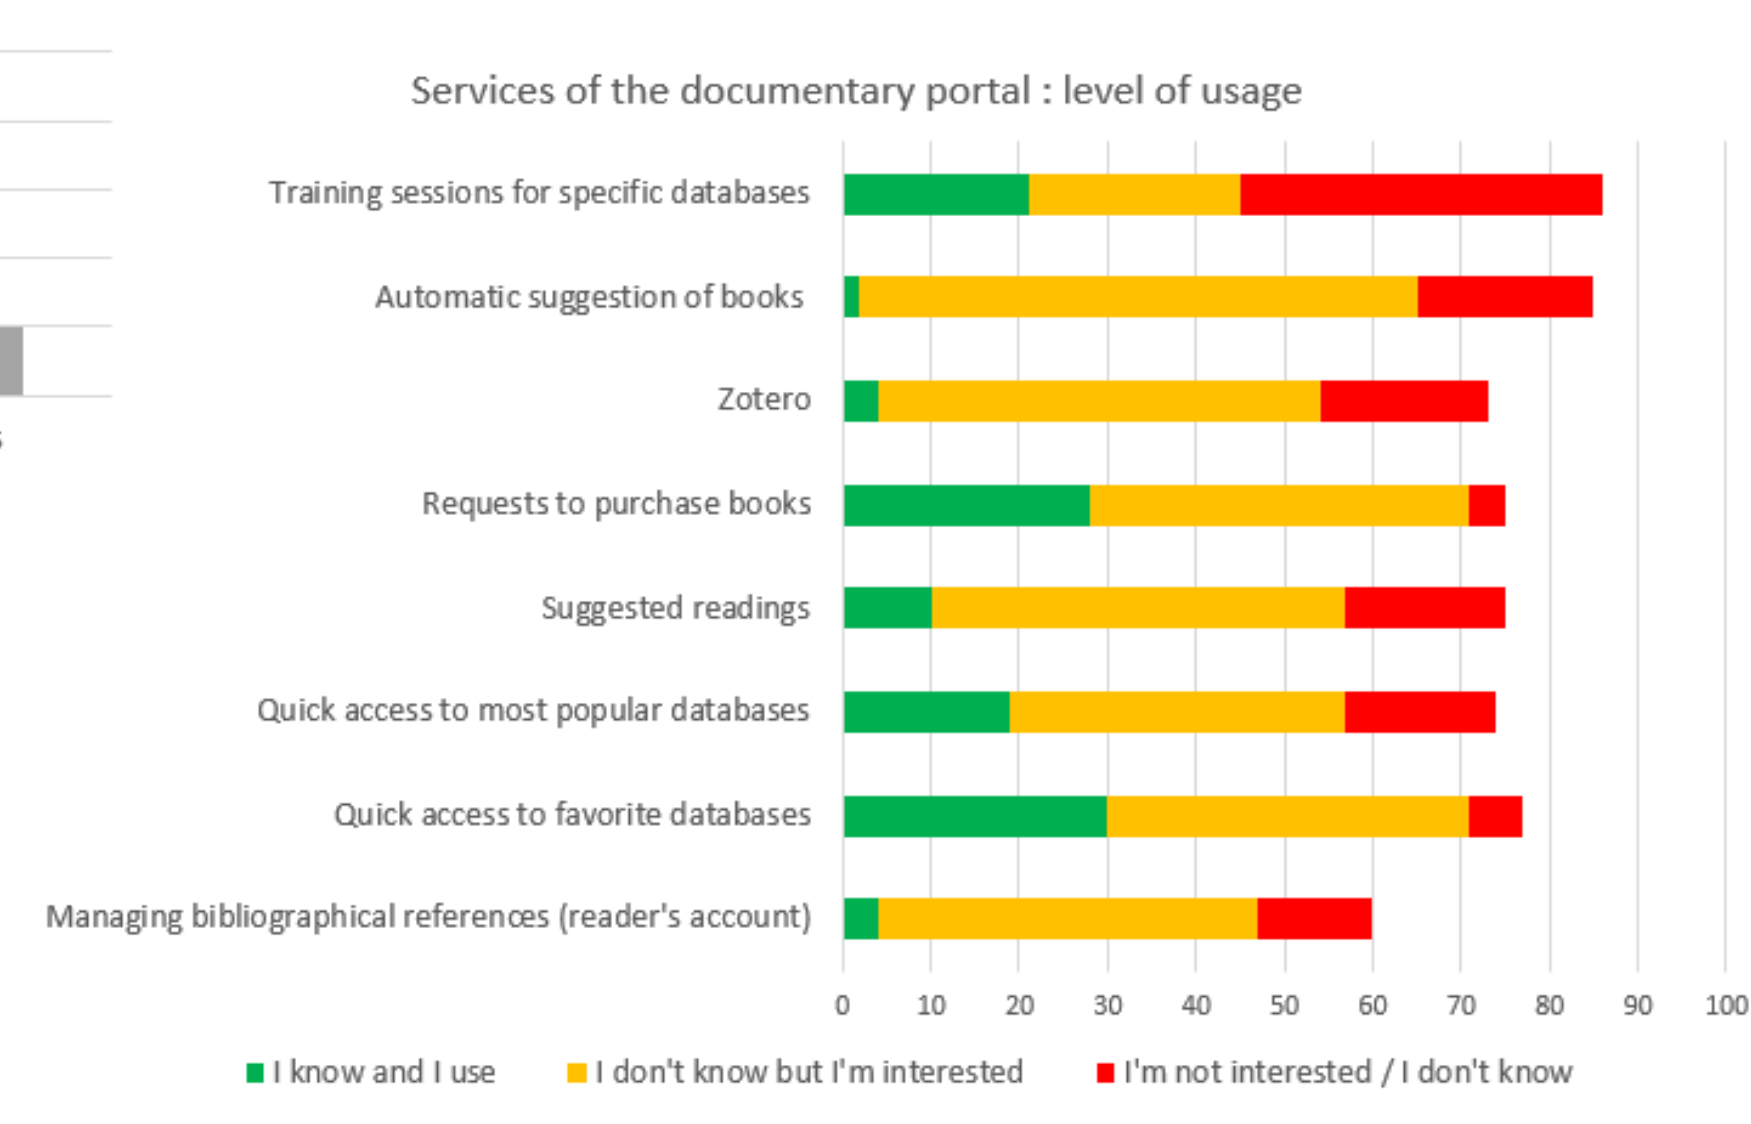

**WHAT DID WE DO?**

**DIGITAL TRANSFORMATION: Digitalizing traditional services**

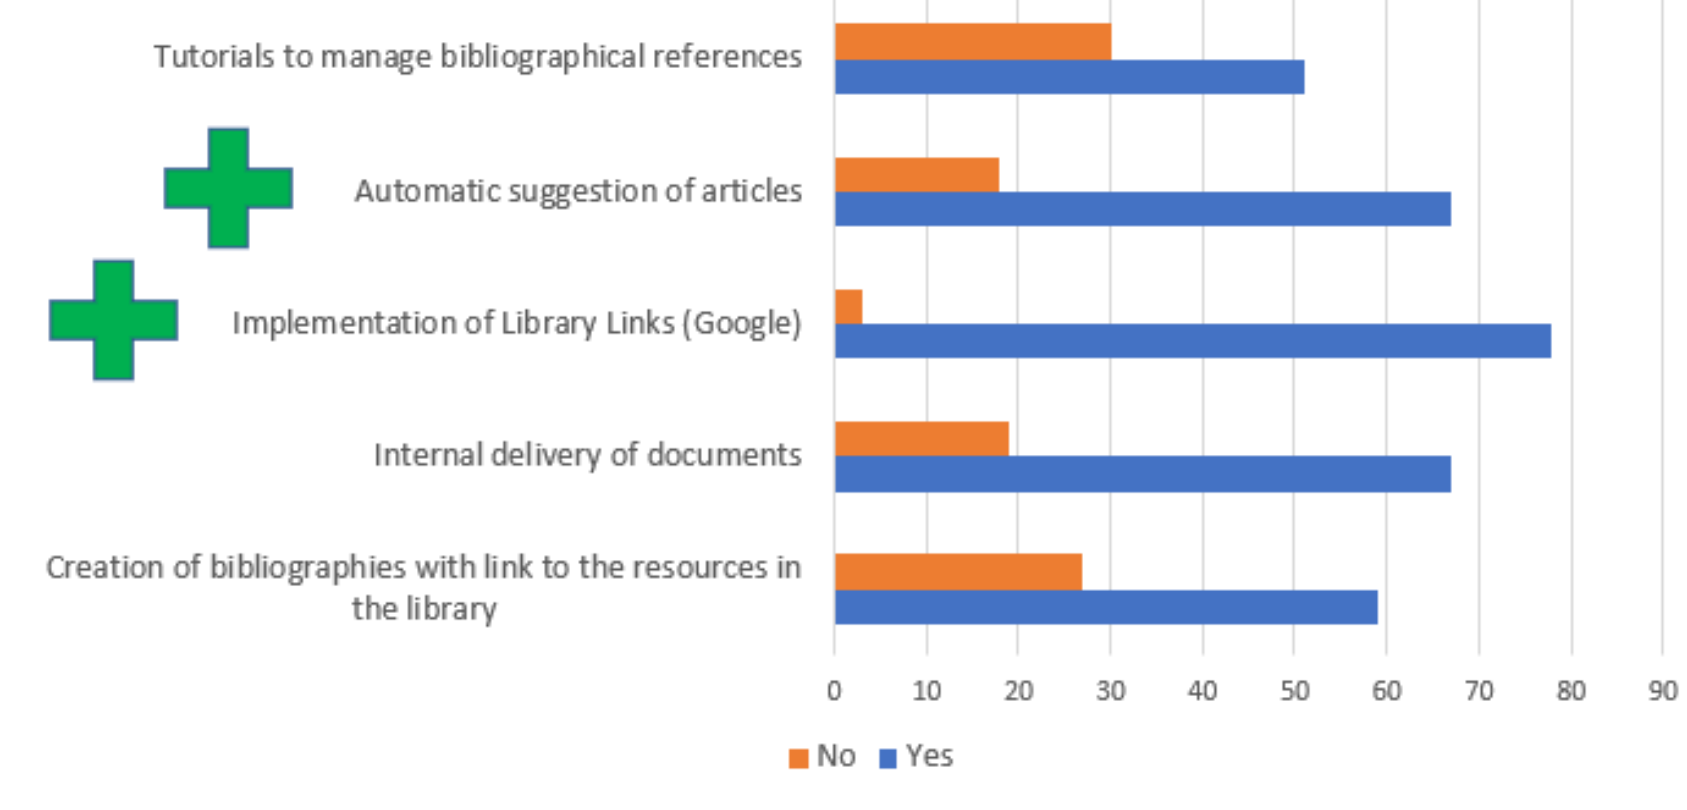

Increase of documentary collections: notably WRDS, ebooks  
Digitization of our whole PhD thesis collection  
Resources federated in a one-stop shop website

Promoting available services  
Improving communication

Suggestion of new services to implement

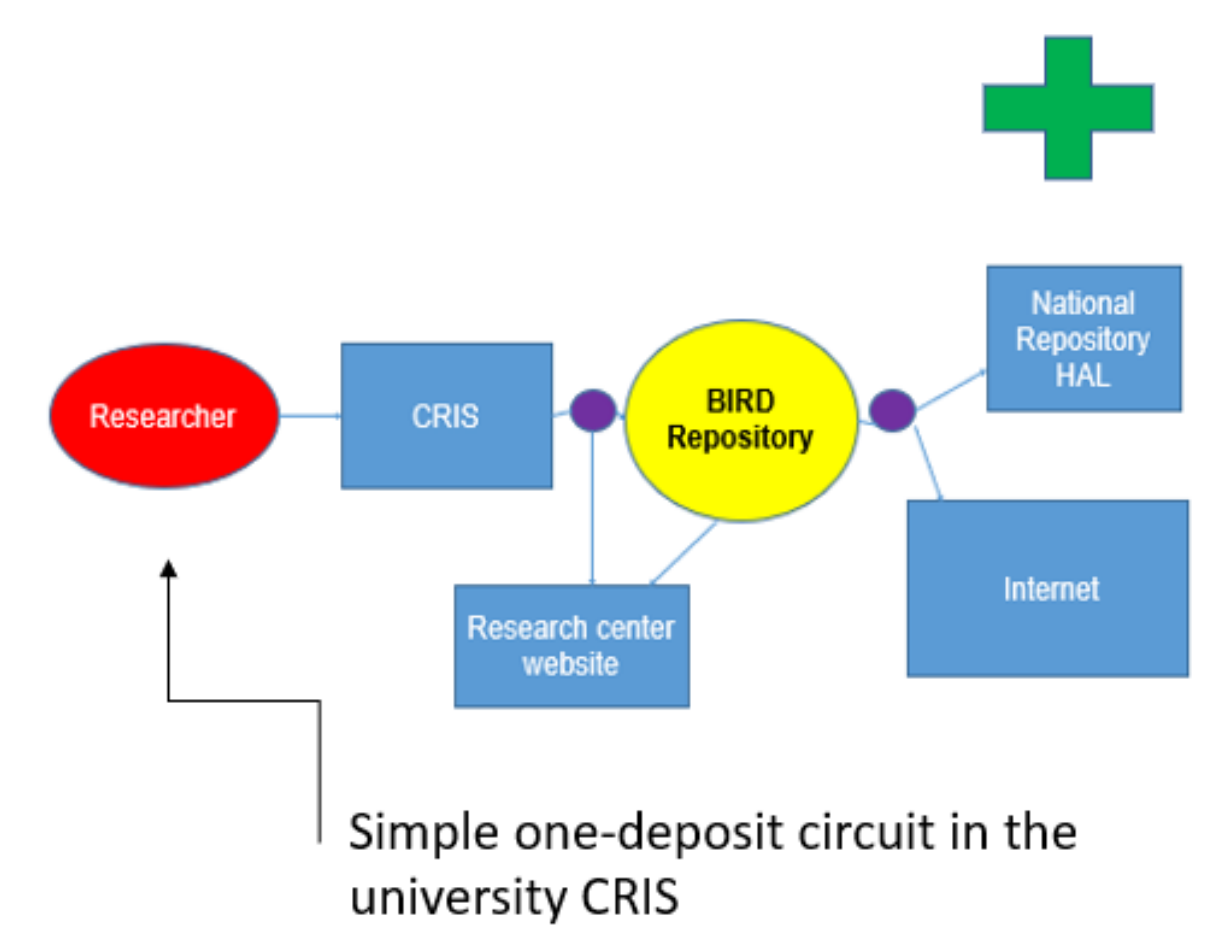

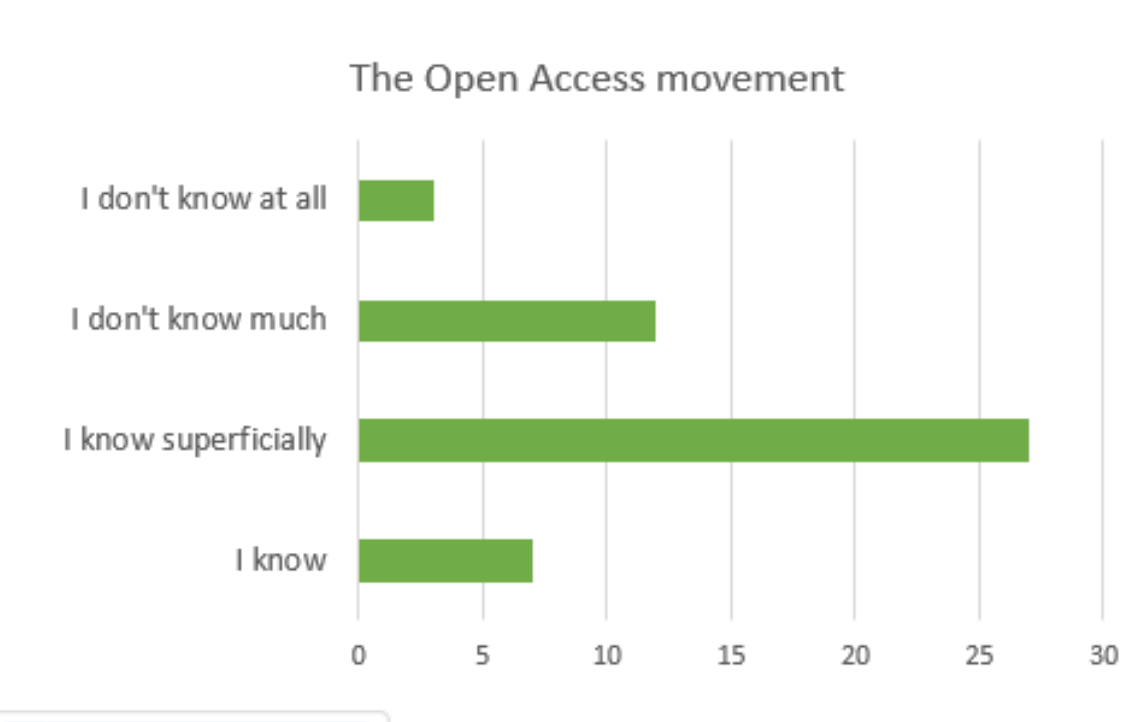

Performing a search

Transforming ILL into e-ILL  
Giving access to database tutorials  
Improving search in the catalogue  
Linking more intimately research bibliographies to library collections

**ENGAGING IN OPEN ACCESS: Instilling information in support of research practices**

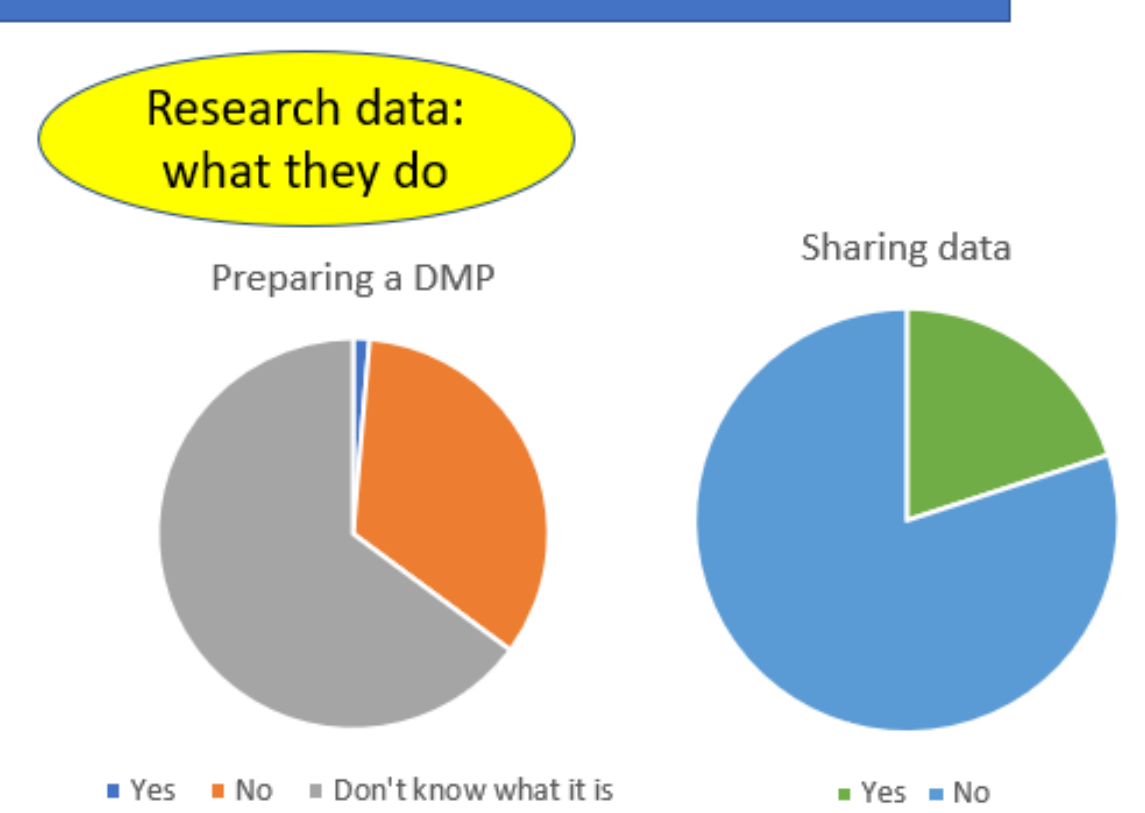

Communication actions - Open Access Week: Share to Shine exhibition and researchers' video clips, quiz and games

<https://portail.bu.dauphine.fr/chercheurs-doctorants/exposition-open-access.html> (and following pages)

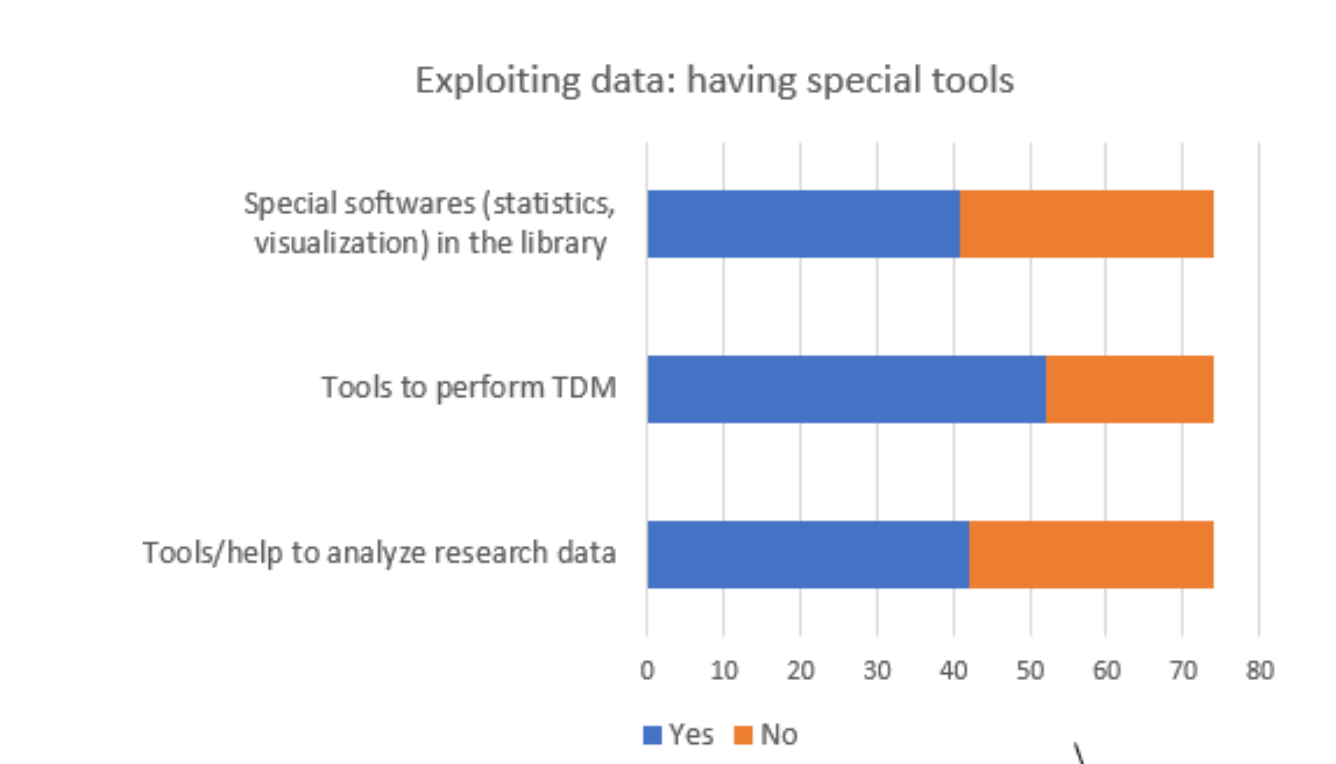

Newsletter (website)

Supporting Open Science and contributing to university strategy: the Jussieu Call <https://jussieucall.org/jussieu-call/>

**RAISING AWARENESS about Open Science**

Working with project engineers on European or National calls for projects (Plan S)  
Beginning with young researchers, because

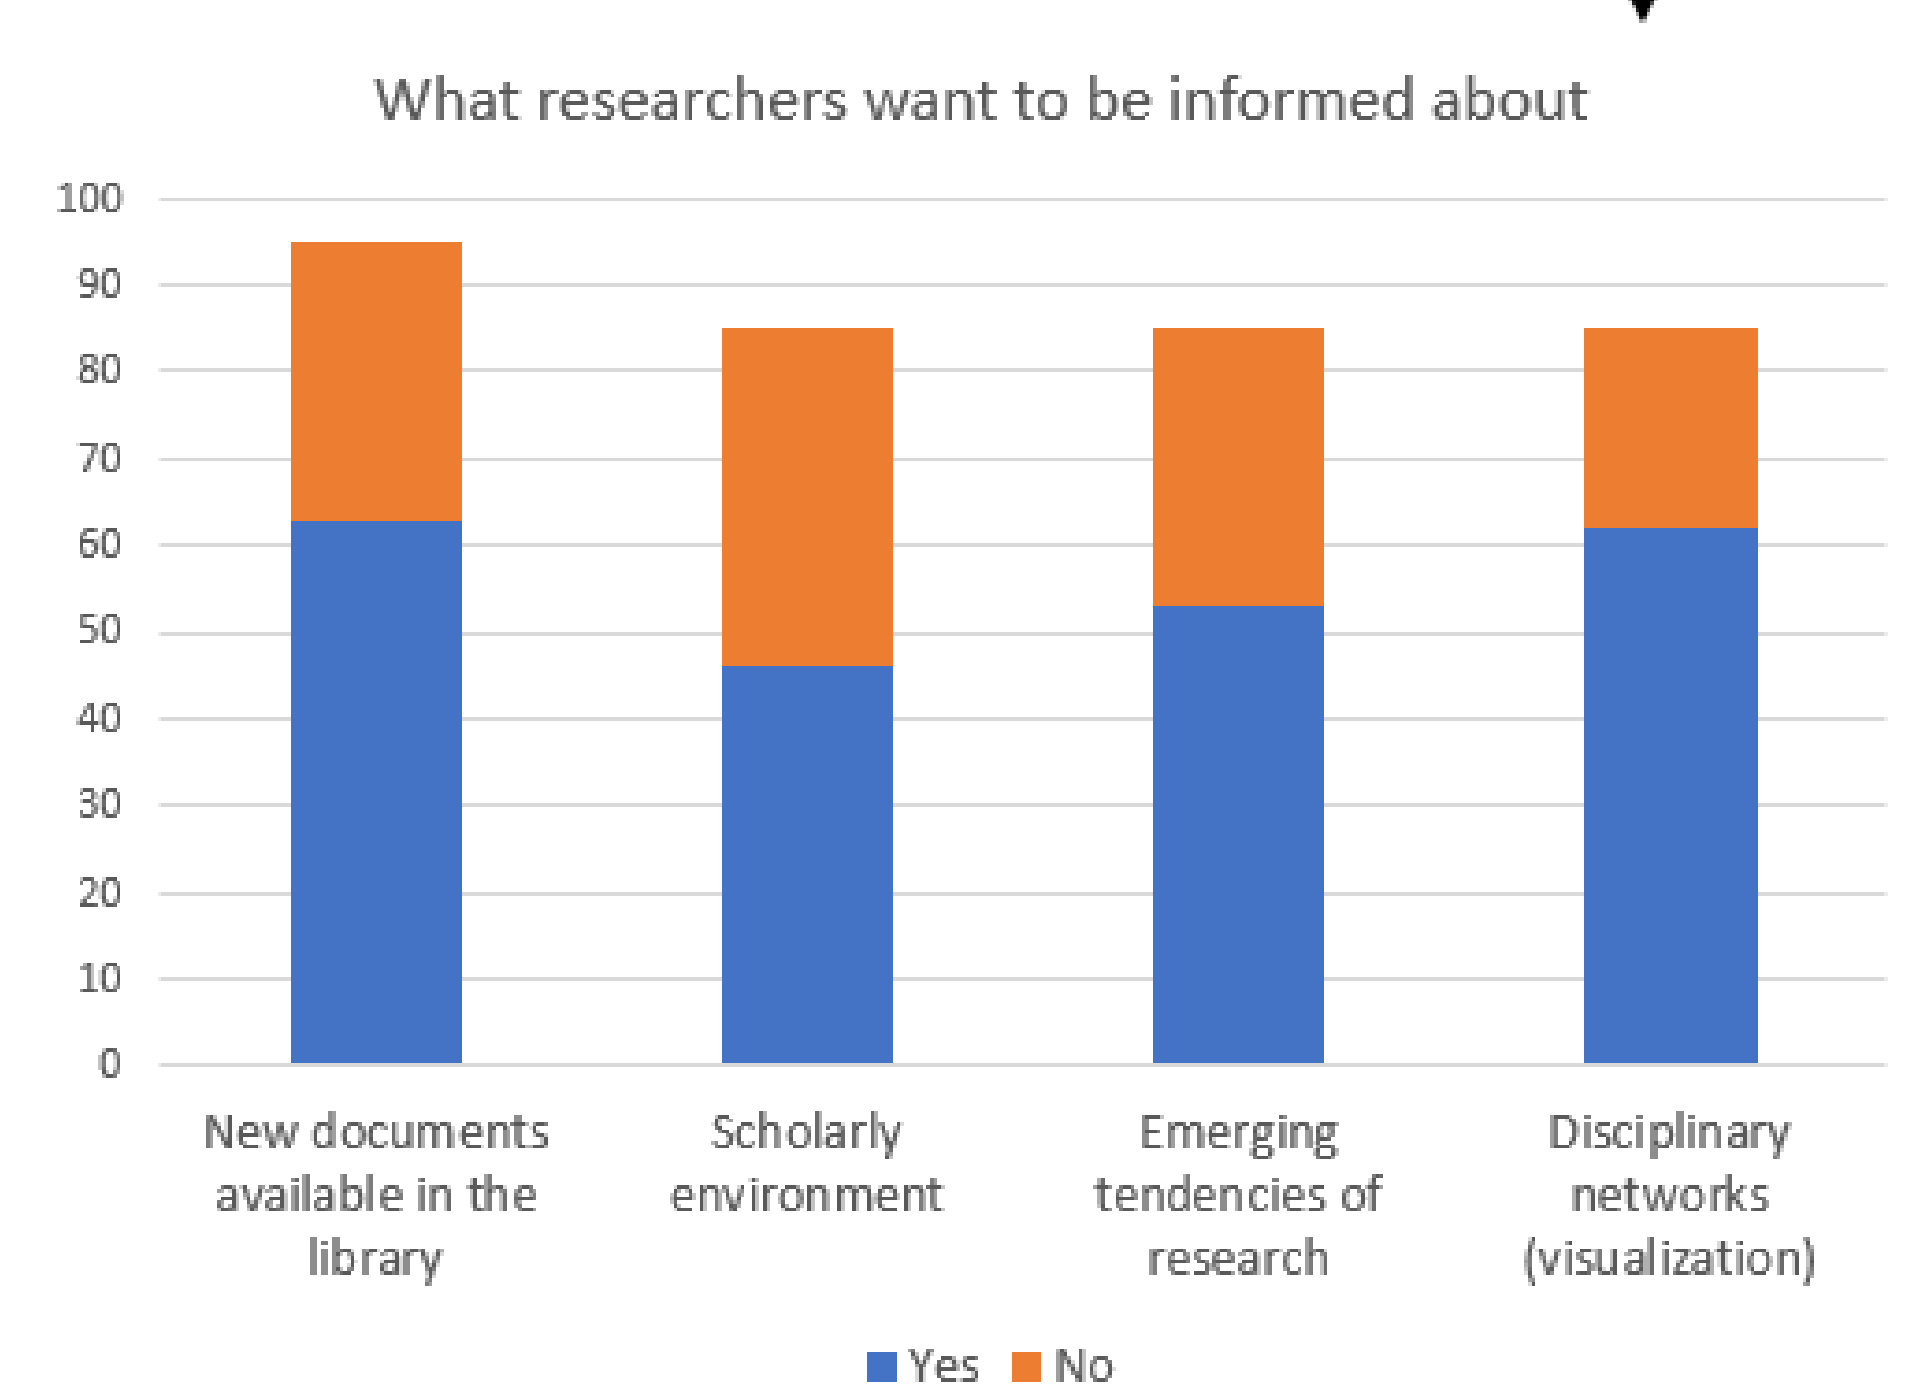

Individual training for PhD candidates  
Providing tools to Exploit data  
Training sessions For PhD candidates  
Gamification of O.S.

What researchers wanted	What we did in 2 years time (2017-2019)
Increase of documentary collection	WRDS, ebooks ...
Information about new purchases	Implemented in Odyssee (our documentary portal)
Training PhD candidates on O.S.	Starting this year, a few sessions
Improvement of documentary research	To be done
Bibliometric studies	To be developed
Suggested readings	Implemented in Odyssee (our documentary portal)
Information about CRIS and repository	Numerous communication actions, OA Week
Information about scholarly communication evolutions	Newsletter
Information about Open Access	Newsletter, mails, OA Week
Development of requests to purchase books	Gaining momentum
Management of data	Beginnings

**TO SUM UP**

One good thing: our researchers are very much willing to receive information
